

When you're signing up to something new, it's important to know what's what. Here's a summary of the essential information about your plan. **Note, this document does not reflect any special offers or promotions which may apply from time to time.**

INFORMATION ABOUT THE SERVICE

You're signing up for a SIM-only month-to-month post-paid mobile service, for use in Australia only.

Our service lets you access mobile data, and receive calls and SMS/MMS. If you add a call and text add-on, you will also be able to make calls and send SMS/MMS to specified types of number.

Minimum term

1 month

Devices

To use this service, you'll need to bring your own compatible mobile device which supports 3G 850MHz and, for access to the 4G service, both 4G 1800MHz and 4G 700MHz bands.

DATA

How much mobile data do I get?

Monthly data allowances for our plans are set out in the pricing table below.

What happens if I exceed my data allowance?

You can purchase additional data if your allowance is low or has run out. We do not apply data top-ups automatically.

If you have no data remaining, your service will be slowed to a maximum of 64kbps for the rest of that monthly payment cycle, but we won't charge you any extra. Your data at the slower speed will be unlimited.

Gifting and banking data

With your plan, you can:

- gift your unused data, in 1GB units, to another Belong mobile customer;
- bank (roll over) any unused data at the end of the current month.

Full details are set out in our Customer Terms.

CALLS & TEXT

What types of calls and texts can I make or send?

The types of calls/SMS/MMS that you can make/send depend on which add-ons, if any, you've selected. The cost of those calls/SMS/MMS is included in the monthly charge for that add-on.

MAKING CHANGES

Can I change my data allowance?

You can change your plan size once per monthly payment cycle.

We'll move you to the new plan and pricing at the start of the next monthly payment cycle, continuing from month to month thereafter until you make a further change. Where you reduce your plan size we won't refund any money or remove data that you've already paid for on the higher data plan for the current month.

Can I add or remove a call and text add-on?

You can add or remove a call and text add-on once per monthly payment cycle.

If you add a call and text add-on you'll be able to use the included calls and SMS/MMS almost straight away, and the monthly charge for the add-on will continue to apply from the next monthly payment cycle.

If you remove a call and text add-on, we'll remove it at the start of the next monthly payment cycle. We won't refund any money that you've already paid for the add-on for the current month.

Add-ons renew automatically at the end of each payment cycle until you remove them.

How do I cancel my service?

You can cancel your service without any further monthly payments by submitting a support request through our app, website or telephone service (see details below) a minimum of 24 hours before the start of the next monthly payment cycle. If you cancel your service, we won't refund any fees that you've already paid to us and your service will stop working within an hour of your request being actioned.
